

Flexo-Technic Handels GmbH
USED CODE 12133

Solvent recovery Type *OFRU DSC 200*

Full automatic working systems.

Vessel in **STAINLESS STEEL**.
Even the internal piping.
This is high quality.

For all alternative solvents and
PERC/BUTANOL.

With a base frame to enable the
discharge into a 200 l barrel.

Saves money with the first start.

OFRU DSC 200 stainless steel with vacuum
Year of make 2000 – very good condition
Very power-full with 24 KW

The condition of the vessel is excellent.
The vibration level sensor is absolutely
reliable.

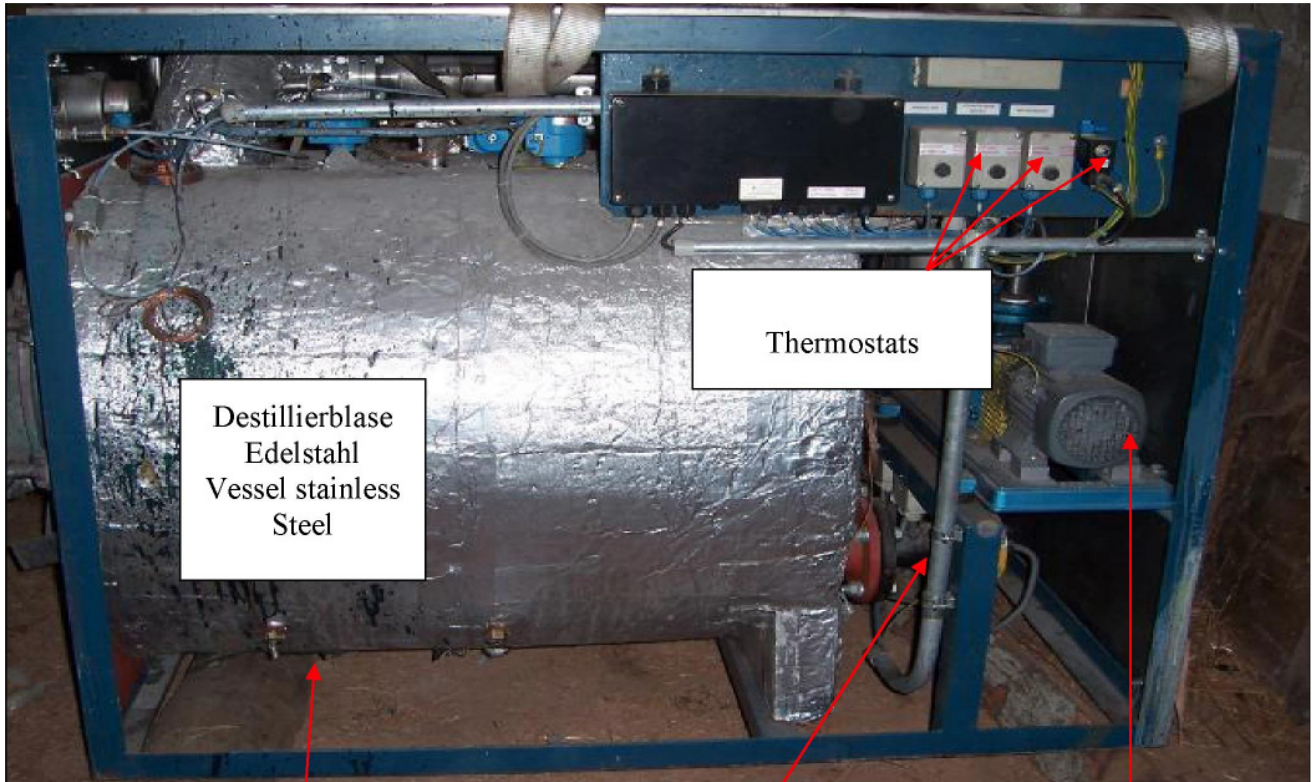

Was in operation only for 3 years.

Control board
with working hour meter

OFRU DSC 200 with opened side covering.

Destillierblase
Edelstahl
Vessel stainless
Steel

Thermostats

Heater Sensor

Immersion header
ex-proofed

Vacuum system
(vacuum pump)

Technical information for the *OFRU DSC 200*

Unit for the recovery of high boiling solvent.

- Full automatic working system possible.
- Indirect heating by diathermia oil in closed circuit.
- Vacuum unit for distillation of high boiling or thermo labile solvents
- Vessel illumination ex-proof
- With a base frame to enable the discharge into a 200 l barrel.

Year of manufacture	2000
Volume of distillation vessel	200 litre
Constant filling volume	100 litre
Vacuum	Yes
Inline production	Possible, see schematic
Output per hour	30 liter*
Operation hours	24 hours possible
Heating up time	1 hour
Type of protection	Exe II T 3
Operation temperature	max. 200
Vacuum abs.	max. 50 mbar
Power requirement	230/400 V / 50 Hz / 3Ph
Power consumption oil-heater	24 kW - 35 A
Consumption cooling water	0,8 m ³ /h

* Depends on type of solvent, type and percentage of contamination
