

Renzmann M 20 N Distillery (Solvent recovery)

Distillery (Solvent recovery) Renzmann M 20 N

Year of make: 1988
Condition: ready for operation, very good, very clean
Location: Flexo-Technic Handels GmbH, 63456 Hanau b. Frankfurt

After distillation you can use your solvent from production and cleaning again. This is economically and ecologically. The Renzmann M 20 N distillation system distills either continuously or batch by batch, in a user friendly process.
You will save money from the first start.

Vessel Capacity: 360 l - Filling Capacity: 225 l

Recovery rate: 30 - 60 l/hr*

* depends on saturation of the solvent.

Preis: **12.200 EUR – uncrated, ex works Hanau, Germany**

Code: **12136**
